A Worthy Tribute to the President's Letter of Acceptance.

The President's letter of acceptance which is still the principle topic of conversation, marks an area in political literature. It is the first time that a Presidential candidate, whether for his first or second term, ever took National issues, great and small, before the country, and the Democrats who know that Mr. Cleveland dare not follow along the same track are in a peck of trouble; they are at a loss how to counteract the effect of the plan, straightforward statements made by the President concerning the position of the Republican party, and covering the actual beneficial results all classes of our people have received under the present administration, and all accomplished in the face of the active and constant opposition of the Democratic party. The President has given Mr. Cleveland a square knock-down, the first in the great fight for the Presidential belt.

On every hand and by all classes of men the President's letter is commended. Col. W. W. Dudley, who was opposed to the renomination of the President, says of it: "The letter is a most admirable one--by all odds far beyond parallel with any previous similar document. It treats all the issues before the people in a broad-minded, liberal and intelligent manner, and will inspire in the Republican hosts a rare degree of enthusiasm. It furnishes to every campaign speaker his text on any topic he may desire to discuss. The letter could not be improved." Secretary Rusk: "It is the best letter of acceptance I have ever seen." Senator Paddock, of Nebraska: "It is a statesmanlike demonstration of Republican principles. The President gets right to the heart of everything. There is not a waste word in the whole letter, and as a literary production it has great merit. I am sure that it will command the respect and admiration of even the President's enemies. With that letter of acceptance well distributed we will not need any stump speeches to disseminate Republican ideas. It is vigorous and incisive. The President's a remarkable man. Take him altogether, I think, we have never had anyone quite his equal in the Executive Mansion." Now hear the opinion of a Democrat--Senator Pugh, of Alabama: "The letter is well written and business-like presentation of the issues involved in his Administration, and contains all arguments to support the Republican policy on the tariff, currency and other questions. It will be, I think, the text of the canvass in support of his re-election."

Mr. Blaine's great letter on the paramount issues of the campaign--Protection to American industries, Reciprocity and a sound financial system is a worthy companion for the President's letter, showing, as it does, that the official leader of the Republican party and the unofficial, but none the less, leader of the Republican party stand shoulder to shoulder on the leading issues of this campaign.

These two letters should be printed together and be placed in the hands of every voter of the United States. For concise, comprehensive, condensed and convincing arguments in favor of the great principles advocated by the Republican party they have never been, and probably never will be surpassed.

Judge Crouse, having placed his resignation as assistant Secretary of the Treasury in the hands of the President, to take effect when accepted, left this week for Nebraska, of which State he is confident of being the next Governor. He carried the good wishes of all the Republicans hereabouts with him.

Postmaster General Wanamaker opened the bids this week for carrying Ocean mails under the advertisements issued by the Post Office Department some time ago. Among the bids received were those of the U. S. and Brazil Mail Steamship Company, from New York to Rio, calling at St. Thomas, Martinique, Barbadoes, Para, Maranhao, Pernambuco, Bahia, and Rio, once every twenty-four days in vessels of the fourth class; same Company, New York to Buenos Ayres, calling at St. Thomas, Pernambuco, Rio and Montevideo, once in forty-five days; same Company. New York to Rio, calling at same ports as in first bid, once every fourteen days. Mr. Wanamaker is very much pleased and it is probable that all the bids will be accepted. All of these Steamships will carry the American flag and be offered by Americans. Another result of the legislation of the billion dollar Congress.

Of Intest to Schools.

1. The raising of the National Flag. The chairman of the Executive Committee, Francis Bellamy, Boston, Mass., will aid you in obtaining flag, if requested.

2. Exercises during the forenoon, in the schoolhouse, by the pupils especially. Each school should have on exhibition at this time samples of work which is to be sent to Louisville, (as indicated on accompanying letter of direction, Circular No. 4.)

3. An afternoon celebration, either at the schoolhouse or in some larger building within easy reach. It is recommended by the National Executive Committee that pupils march in procession, led by the veterans of the Mexican and of the Civil War, with appropriate music.

4. A short address by the most capable speaker in the community. The teacher and trustees ought to constitute a Committee on Arrangements; while the school should choose, by ballot, a Committee on Finance, composed of three males and three females, with the teacher as EX OFFICIO chairman, whose duty it shall be to solicit from the people of the district whatever funds may be found necessary for the purchase of a banner and meeting other local expenses.

An important part of our display at Chicago will consist of photographs of school-buildings and grounds, teachers and pupils; and the more characteristic and representative schools in each County ought to be shown by photographic transparencies. The proper objects of these expensive pictures should be selected by the Central Committee. Part of the fund for this purpose ought to be raised by teachers and pupils. A list of names of all pupils contributing, preceded by the number of the district and the teacher, should be written on paper, in ink, of the size prescribed in Circular No. 4, accompanying this. These sheets should be sent to the County Superintendent, that he and his Committee may have them bound in one volume--this to be forwarded to the State Superintendent, for the Chicago Exposition, and afterward to be preserved in the archives of the Educational Department of the State Government. In case where the Central Committee cannot have the sheets bound in good style, they should be expressed to the State Superintendent, who can have it done. They should all be made up before the first of January.

The penny contribution should be sent to the County Superintendent, (who will receipt the school for the amount,) and be sent by him to the Kentucky Commissioner of Liberal Arts, at Louisville, as part of a fund to secure pictorial representation of our Schools. A copy of Circular No. 4 should be placed by teachers in the hands of every pupil in the State, at as early a date as possible.

The Celebration of Columbus Day occurs at a peculiarly propitious time for Kentucky. The State has but just entered upon its second century; and the boys and girls who are in school now will give tone to her moral and intellectual, her social and political life, for a half century to come. The study of the history of the great discovery and of the tremendous events that follow upon the opening of a New World to civilization ought to quicken every patriotic pulse in both old and young. It will create for the latter high ideas, and inspire with the noble purpose of giving to Kentucky a still more honored name in the sisterhood of States.

Your County Superintendent will furnish you with such documents, relative to both the Celebration and the Columbia Exposition, as may hereafter emanate from the National Executive Committee, or from this or the Louisville office.

Organization of the Parties. BROWNING, Sept. 3.--When the Revolutionary war began, in 1775 the question at issue between the British Ministry and the Colonists, gave rise between the Whig and Tory parties. These were the names of the two political parties in England, but they lost in America the significance, which they had in the parent country. The line of difference between the parties for the first fifteen

Harden Your Muscles. (Boston Globe.) Few men seem to be aware that five minutes spent in daily, or even three times a week, in exercises properly selected for bringing out all the principal muscles of the body are sufficient to set the blood coursing freely to the extremities, to stimulate the heart, to massage the bowels, to stir up the liver, to strengthen the limbs, to straighten the shoulders and increase the capacity of the lungs, says the Tribune. All the apparatus required is an ordinary walking stick.

Dr. C. P. Linhart, physical instructor of the Manhattan Athletic club, recommends the following exercises to busy men on rising in the morning or just before going to bed at night: "For the upper part of the arms: Grasp the cane firmly at both ends with the hands and hold it across the chest, letting the middle of the cane rest on the breast just under the chin. Drop the hands forward and down to the full length of the arms rapidly and return to position on the chest, accentuating the upward movements. Continue this for thirty seconds. Holding the cane as before, push the arms straight above the head, full length, taking long, full breaths. Continue this for thirty seconds more. "For the muscles of the sides: With the arms at full length above the head and the hands grasping the cane

A VOTE for Harrison means Protection and prosperity; a vote for Cleveland, Free Trade and poverty.

The Hardin County Fair is in progress at Elizabethtown this week. Large crowds, fine stock and good races are the features.

The Herald openly admits that the State is in a "miserable condition of affairs." So it is and the Democratic party alone is responsible.

The Fair Company are making great efforts for the most successful meeting ever held in the county. Fine and fast stock will be on exhibition and a good time is expected. Time, Sept. 28 to Oct. 1.

This is a big week for the army of the Cumberland. Thousands of old soldiers gathered at Chickamauga to take part in the great reunion. The 17th Kentucky is represented by our own gallant Capt. S. K. Cox.

GOVERNOR BUCHANAN, of Tennessee, has decided to run as an independent candidate for re-election, the regular Democrats have refused him a renomination. He and Grover Cleveland will run in the State on the platform "Clemency to murderers when they are of the chivalry."

Miss Josie Duke has been nominated as the Democratic candidate for Superintendent of Schools in her new home, Livingston Montana. It is only to be regretted that such an able and deserving woman as Miss Josie should have such bad politics, but she will make an excellent officer if elected.

Let the teachers and pupils of the various schools in the county prepare to celebrate Columbus Day on October 21st, just, with appropriate exercises. It is a great National event and a rare opportunity to instill a love of country in the minds of the children. Let schools that can procure one raise a flag on that day in honor of the great event that is meant to be celebrated together with the great strides in civilization that have arisen as a result of the great discovery. See program on outside.

The federal tax on the currency of State banks has been a thorn in the side of the States rights Democrats for many years. The Democratic platform now advocates its repeal and, in effect, a return to the old wild-cat system of currency issued by State banks. Secretary of the Treasury, Foster, in his first speech of the campaign, has shown that every panic in the country's history followed an inflation of currency by the over-issue of State bank circulation. No one ever lost a dollar on national bank circulation. The people will put a seal of condemnation on the project to restore wild-cat banks.

The Democratic Congress has not yet offered to repeal the McKinley law, and it has not proposed any measure to take its place by which the people may judge of the merits of the plans of the two parties. Of course this was done simply that the party might not be committed to anything definite and that the people might be beguiled by different promises in different places, to suit the desire and demands of the people in each place. But the nation is well informed that the return to power of the Democratic party means the repeal of protective laws and the admission of floods of products of cheap foreign labor.

There was a howl of exultation went up from the Democrats all over the country at the time of the unfortunate outbreak of violence at Homestead. Democratic leaders, in Congress and out, did not hesitate to say that the event offered excellent campaign material. So they sent a committee of the House off to Homestead to investigate and work up the material. Judge Oates, of Alabama, a Democrat, was chairman of this committee. After the investigation it was seen that affairs at Homestead offered nothing in the way of material for the Democratic campaign, so it was determined by the House to post-

pone receiving the report "until after the election." Judge Oates had, however, prepared his views in the form of a report, which the other Democrats on the committee refused to subscribe to. He therefore gave them out to the public as his own private views after the advantages for investigation he had had. Because these views are not such as to make good campaign material, Colonel Jones, of the St. Louis Republic, and other influential Democrats are now demanding that Oates ought to be defeated for re-election, and that he is not a good Democrat. It is not good Democracy to speak the truth.

COL. C. M. BARNETT will open his canvass next Monday at Mumfordsville, a large crowd is hoped for and expected.

The only difference between a Democrat and an English patriot is that the Englishman is in England, while the Democrat is in this country.

The poisoning of Mrs. Sherrell, of Louisville, has created considerable interest throughout the State, as Mr. Sherrell is a prominent traveling man and well known.

We learn the Third Party is kicking about the big bargain and sale they are making with these two hundred supposed office-loving Democrats and Republicans. Don't kick, if the shoe pinches, wear it.

We acknowledge the receipt of a complimentary ticket to the Ohio County Fair, which convenes September 28, 29, 30 and October 1. The Fair promises to be good, and everybody should attend and help sustain this worthy enterprise.

An English paper remarks that as their elections are over it would be exceedingly wise for all English editors and speakers to be entirely mum about the state of affairs in America, for fear that in their efforts to further the interests of Free Trade through their willing ally, the Democratic party, they may do the cause more harm than good by appearing just a little too much interested in American politics. Who says these papers are actuated by honorable motives? Who is it so blind that he will not see that England is attempting our downfall?

THE People's Party has reached that stage of decline where it has set up an inner secret organization, with grips, passwords, signs, and the like. It is said to have been this compact organization within the People's Party that controlled the recent convention at Omaha and forced Weaver upon the convention. The oath which members are required to take is iron-clad and ends "should I wilfully break this oath I hereby surrender my body to the just vengeance of the members of this order." This edifying organization is known as the "Band of Gideon" and chose for its first Jerubbaal, or Mighty Chief Gideon, Congressman Livingston, of Georgia, who has doubtless had experience in Ku Klux organizations that stood him in good stead in devising all the mummery that characterizes this organization.

A Free Trader on Wages
Mr. Edward Atkinson, a free trader and a Cleveland Democrat, said in the May Forum:
"There has never been a period in the history of this or any other country when the general rate of wages was as high as it is now or the prices of goods relatively to the wages as low as they are to-day, nor a period when the workman, in the strictest sense of the word, has so fully secured to his own use and enjoyment such a steady and progressively increasing proportion of a constantly increasing product."

The same gentleman in the Boston Herald says:
"Since 1880 there has been a marked increase in the rate of wages or earnings of all occupations of every kind above the grade of common laborers. So far as the writer has been able to obtain the data, this advance in rates of wages may be estimated at from 10 to 20 per cent., as compared with the rates of 1880, the proportionate advance in each case being in ratio to the relative skill required in the work. The wages of the common laborer have not advanced very much, but he has been rendered able to buy more for his wages on account of the reduction in prices. The skilled laborer has secured the highest rate of wages ever known in this or any other country, and can also buy more for each dollar. The advocate of free trade who denies this advance makes a mistake."

Protection and Constitution.

[GOVERNOR MCKINLEY.]
Protection unconstitutional! A policy which is as old as the government; a policy which commenced with the government; a policy which was recognized in the second act ever passed by the Congress of the United States, by a Congress participated in by many of the framers of the Constitution, fresh from the preparation and promulgation of that great instrument. That Congress passed a law in 1789, the preamble of which declared it to be:
"For the support of the government, for the discharge of the debts of the United States, and for the encouragement and protection of manufactures."

That law was passed by a unanimous vote in the Senate of the United States, and by a majority of five to one in the House of Representatives, was reported by Mr. Madison, who was afterwards President of the United States and was approved by George Washington.

It is in violation of any constitution it is not that of the United States. It is a manifest violation of the constitution of the Confederate States. Possibly that is what they recognize that instrument—and never did—and we are not operating under it. It went down before the resistless armies of the Union, commanded by Grant and Sherman, and the constitution of Washington and Lincoln was sustained, which from its birth time until now, has recognized and justified the principle of a protective tariff. Hamilton and Madison, Jefferson and Calhoun, Clay and Webster, Adams and Jackson always asserted and maintained the constitutionality of protection.

Is Cleveland a better constitutional lawyer than Jefferson; is Vilas more learned than Maclis; Watterson more profound than Clay; Adlai Stevens a better expounder of the Constitution than Andrew Jackson; are all of them combined safer interpreters of that great instrument than the Supreme Court of the United States, which has never failed when called upon to sustain the constitutionality of a protective tariff?

To the Teachers in the Rosine Magisterial District.
Mr. A. Lee Bennett was appointed by our Superintendent, to arrange a programme for the first Teachers' Meeting in our district. Mr. Bennett, on account of the late date on which he will begin teaching, has requested me to act for him in this capacity. After consultation with some of the teachers, I have decided to call the first meeting at Sulphur Springs. Mrs. Morton has kindly offered us the use of the hall and grove, and I think you can spend the day both pleasantly and profitably. It has been impossible for me to obtain a list of all the teachers in the district, but I hope all will be present, ready to take an active part in all the discussions. We invite the teachers connected with other organizations to meet with us, on Saturday, September 24, and help us to make the first meeting a success. The program is as follows:

Devotional Exercises—R. D. Bennett.

Organization.
Object and Importance of Teachers' Meetings—G. W. Miller.
NOON.
Grammar—D. H. Godsey.
Essay—Belle Whittinghill.
Arithmetic—J. S. Fitzhugh.
Geography—J. D. Oliver, Bertha Felix, A. R. Renfrow.
Recitation—Educational Journal—Mrs. J. A. Wedding.
Civil Government—F. M. Petty.
Recitation—Hortense Paget.
The Teachers' Duty—Lucy B. Townsend.
Physiology—Dr. H. F. Bean.
Allow me to suggest that the teachers select some of their students to prepare recitations, for by this means we interest parents and students in our work. A place on the program will be given to any student who will take part. Allow me to urge upon all the teachers, the importance of attending the first meeting.
Respy,
LUCY B. TOWNSEND.

George Bradley Dead.
[Frankfort Capital.]

George Bradley, only son of Col. Wm. O. Bradley, died at the family residence in Lancaster, Ky., Friday, of typhoid fever. George Bradley was educated at the Kentucky Military Institute near this city, and was a gentleman of intelligence and popularity. The bereaved father and family have the earnest sympathy of many personal friends.

The Republicans of Grayson county are requested to meet at the Court House in Leitchfield, on the fourth Monday in this month, (the 26th day) at one o'clock p. m. to reorganize the Republican Committee, caused by the creation of the new precincts and to organize a Harrison and Reid Club on that day. Hoping all Republicans will attend I am, Respy
DAN O'RILEY, Chairman.

4 Days only.

Entertained.

Judge H. W. English and his accomplished wife did a very courteous part by a number of friends at the Elizabethtown Fair Wednesday. They had spread a sumptuous dinner, which at their very kind invitation was partaken of by the following named: Dr. W. G. Hunter, Bowling Green; S. Calvin Taylor, Col. C. M. Barnett, Judge E. D. Walker, Wm. Milligan, A. T. Nall, Rowan Holbrook, R. D. Walker and Jo. B. Rogers, Hartford, all of whom enjoyed the reception most heartily.

Judge English is an elegant gentleman and is County Judge of Hardin county and Vice-president of the Fair Company, and a brother to Mrs. E. D. Walker, of this city. Mrs. English is a highly cultured lady of great mental and moral worth, and it goes without saying that both will be most kindly remembered by those who enjoyed their generous hospitality.

They Played Ball.

According to arrangements the Owensboro Baseball Club came over to Hartford last Saturday and met the McHenry team. From the beginning it was seen that the McHenry club was getting the worst of it, and it was only a very short while until the Owensboro club had so far exceeded the McHenry's in scores that it was impossible for them to win. The score stood Owensboro, 22; McHenry, 7.

T. J. MORTON & C. H. HAMILTON.

Remembered.

[Howard Kansas County.]
The following from the Richmond, Ky., Climax, concerns a young man who spent one year in Howard, along in the eighties, in Lawyer Douthitt's office:

"The Republican convention of the Fourth Kentucky district at Elizabethtown, nominated C. M. Barnett, of Ohio county, for Congress. Mr. Barnett attended Avers' Academy at College Hill in this county a few years ago. He is a brilliant young man, but unfortunately belongs to the wrong side to win this time as the district is overwhelmingly Democratic. He is one of the leading young Republicans of the State being but 30 years of age."

Beaver Dam Roller Mills.

The attention of the public is specially called to the fact that this Mill has just been completed upon the most modern plan, with all the improved appliances for the manufacture of the FINEST FLOUR and other Mill Products. Positively no money has been spared to make it turn out as fine product as any Mill in the STATE.

It has been thoroughly tested, having been run almost every day since its completion and a portion of the time at night to keep up with its orders. Its product has been sold to the best, most scrutinizing and particular trade of the country, and it is with pride that it can point to testimonials from the best bakers and many of the very best cooks of the county that it makes the best flour they ever used. For the benefit, convenience and protection of the farmer has this Mill been built, and to him will it look for its support.

With proper care Ohio County can produce as good wheat as any, and this Mill intends to see that her farmers get the benefit of any efforts they put forth in this direction. The best products of this Mill shall go upon the farmer's table, and if he will favor it with his patronage and his influence satisfaction will be guaranteed to him.

We have now one of the very best and most experienced millers in the Green River Country, but that no pains may be spared to give the farmer the full benefit of his good wheat crop, we have ordered and are expecting every day an expert miller sent by the builders of our Mill to stay with us during the season. We shall certainly consider it a great favor if every farmer in the County will call on us within the next 60 days and get a sample of our product and our treatment. We want all the FIRST-CLASS wheat that is for sale in the County and if you have it to spare, load it up, and we will pay the highest market price for it.

Mill open every day except Sunday.
